## **DETAILED ACTION**

### **Examiner's Amendment**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Non-elected claims 11-20 have been canceled due to election without traverse on 07-20-05.

### **Reason for Allowance**

2. Claims 1-10 are allowed.

3. The following is an examiner's statement of reasons for allowance: Radens et al. (US 6,426,252) and Yamada et al. (US 2002/0076880) appear to be the closest prior art references. However, these reference fails to teach that the strap is diffusion region partially forming in the divot (both Raden and Yamada teach that the strap is formed of polysilicon layer not diffusion region) and "transistor in upper portion of said trench, said transistor in electrical contact to said silicon-containing layer of said substrate through an upper strap diffusion region". Prior art of record fails to teach or suggest to incorporate these limitations into above references to arrive at the claimed device.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
